

ASPIRING FRONTEND DEVELOPER PASSIONATE ABOUT CRAFTING USER-CENTRIC SOLUTIONS

RUOYIN (NINA) LIN

2nd December 2024

Dear Rasmus Stjerne Hansen,

I am excited to apply for the Front-End Developer Internship in your Core Financing Platform Tribe. It was a pleasure speaking with you at the Danske Bank event, where we discussed front-end development and your team's work on creating innovative digital solutions. Thank you for taking the time to answer my questions—it deepened my appreciation for Danske Bank's commitment to improving the financing experience through user-centered and agile approaches.

Danske Bank's focus on collaboration within cross-functional squads and the opportunity to deliver value through intuitive, scalable solutions deeply resonate with me. Currently pursuing front-end development at ReDI School in Copenhagen, I have developed strong technical skills in HTML, CSS, and JavaScript, paired with a passion for crafting user-friendly experiences. Leading a digital transformation project at Nanxiang Junior High School gave me firsthand experience in the importance of intuitive software for improving workflows and user satisfaction, solidifying my motivation to contribute to customer-centric solutions.

My background in education has equipped me with excellent communication and collaboration skills, allowing me to work effectively in diverse teams. I also bring an analytical mindset and adaptability to solve complex problems—qualities I am eager to apply in this role. The chance to collaborate with UX designers, implement engaging user interfaces, and learn from experienced professionals aligns perfectly with my aspirations for personal and professional growth.

Thank you for considering my application. I look forward to the opportunity to discuss how my experiences and skills can contribute to Danske Bank's Core Financing Platform Tribe.

Sincerely,

A handwritten signature in black ink, reading "Ruoyin Lin". The signature is fluid and cursive, with the first name "Ruoyin" and the last name "Lin" clearly distinguishable.
